Modern hospitals are increasingly focusing on their core competences: good medical and nursing care. The Custom Procedure Tray concept developed by Medica Europe responds perfectly to this tendency. For the hospital staff, the collection and preparation of materials for operations is labour-intensive, cost-intensive. When your hospital employs the Custom Procedure Tray concept, all this work is taken out of your hands, thereby saving both time and money.

"Quality is not an act, it is a habit." (Aristotle)

Customised Quality

Sourcing Medica Europe is able to order products from practically any supplier you wish, anywhere in the world. Your specifications plus our expertise always lead to the best solution.

Best Cost Medica Europe always looks for the best price-quality ratio for the products in the trays. Our worldwide presence enables us to make attractive contracts with our suppliers. But, of course, the cost of buying in the components is not the only pricing factor. Tasks you are currently obliged to undertake in-house will be included in the price you pay: 100% guarantee of quality, efficient logistics management and appropriate stock control. This quality/price sum is amazingly keen.

Fast Change Modern health care requires speed and flexibility. That is what you can expect from us. Products on the market are continually changing and improving. We enable you to react to such changes in an appropriate manner. Medica Europe is only too pleased to offer you advice. A new innovative product? We change the make-up of the Custom Procedure Tray on request. In brief: Medica Europe is flexible.

Quality Quality control is a continuous process. We guarantee consistently high quality with regard to the products and trays. Medica Europe's Production Department works according to international quality standards. Moreover, our suppliers expect us to assess their products critically. You can rely on Medica Europe.

Choice The choice of products in the tray is up to you. We will advise, but in the end you yourself decide the make-up of the Custom Procedure Tray. Draw up a list of your wishes, specifications, products and brand names and we will give you a very competitive cost estimate. Medica Europe is ahead of the field in Custom Procedure Trays. You are good at medical and nursing care. Medica Europe specialises in assembling, packaging and the ready-to-use supply of Custom Procedure Trays.

Responsiveness Good service requires a quick and appropriate response. This is Medica Europe's motto. Your request leads to a rapid response on the part of Medica Europe. A change in products, different delivery times, changes to quantity... you ask and Medica Europe does the rest. No complicated procedures: just short and efficient lines of communication guarantee interactive collaboration.

On-time Delivery You want to have Custom Procedure Trays in the hospital that meet the current demand – in other words, rapid throughput and a small in-house stock. Medica Europe can do this for you, whatever way you want it. Your planning forms the basis of Medica Europe's planning. A few times a week, ten times a month, ad hoc in emergencies... We guarantee the right quality and quantity at the best price. Tailor-made quality, on time!
